Alpha Sigma Phi Fraternity
c/o Neale Bedrock,
323 High St.,
Newark, N.J. 07102

Dear Neale,

Rob Sheehan has kept me in touch with the rebirth of AΣΦ at Newark. It delights me! I consider fraternity life a valuable adjunct to a well-rounded college experience. It is almost fifty years now since I was graduated (1933), in deep depression days, yet the give-and-take of fraternity life seem as enduring memories to me today. We were then Alpha chapter of AKΠ, and we adopted the name from Wagner College's fraternity to start our own "national", with two chapters! The things I learned from chapter life have stood with me all my life. Most active at that time were a group from East Orange, ~~three~~ ^{including three} Hull brothers, two Frohboese brothers and others. Look them up - they would be enthused to join in the festivities.

The Alpha Sigs extend far and wide -- my daughter married one from Cornell, and the president of Robintech, Inc. (with whom my firm merged) turned out to be a famous Alpha Sig from our co-founding college (Wagner) by the name of Brad Corbett! Good luck - and aim for high standards.

Fraternally, Wil Kupfrian
