Dear Brother Morty

Last Christmas I sent you our
Christmas letter for 1992 (a copy is enclosed)
which was returned, no forwarding.

I really did not want to lose
contact with you.

I was greatly surprised and
extremely pleased to see the
article in the Tomalcauc regarding
your great adventure at the south pole
with the Chapter floy from Nevada
Alpha Phi. and will be looking
forward to the progress of planting
it at the North Pole. That surely
would be a "First of the Firsts"

Your correspondence in the past have
been a great help to me. As you know
I have a great interest in Alpha Phi
and was one of the founders of Alpha
Kappa Omega ^{Alpha Chapter} its first Chapter in
1926. A.K.T. was formed out of a
local fraternity of A.K.Z. which I was
also associated with.

I have just passed on my last my
86th birthday. My private career
is beginning to spread.

It has been great to know you

See over

Fidelmielly

P.S. Brother John Chaney was
good enough to give me your
present address.

Drop me a line if you should
happen to have a free moment

Truly
Yours
